Capability Statement for A D Electric

1. **Company Overview:** A D Electric is a reputable electrical contracting company specializing in providing high-quality electrical services to a diverse range of clients. With a commitment to excellence, safety, and client satisfaction, we have established ourselves as a reliable partner in the electrical industry.

2. **Core Competencies:**

- Electrical Design and Installation
- Power Distribution Systems
- Lighting Systems
- Energy Efficiency Solutions
- Emergency Power Systems
- Low Voltage Systems
- Control Systems
- Renewable Energy Solutions
- Maintenance and Repair Services
- EV Chargers – Installation

3. **Certifications:**

- Licensed Electrical Contractor C-10 1106029 Exp 6-30-2025

4. **Capabilities:**

a. **Electrical Design and Installation:** Our team of skilled electricians possesses extensive experience in designing and implementing electrical systems tailored to meet the specific needs of our clients. From conceptualization to installation, we ensure precision and compliance with industry standards.

b. **Power Distribution Systems:** We specialize in the installation and maintenance of robust power distribution systems, ensuring a reliable and efficient flow of electricity throughout commercial, industrial, and residential facilities.

c. **Lighting Systems:** Offering comprehensive lighting solutions, we design and install energy-efficient and aesthetically pleasing lighting systems. Our expertise covers interior and exterior lighting for various applications.

- d. **Energy Efficiency Solutions:** Committed to sustainability, we provide energy-efficient solutions to help clients reduce their carbon footprint and operational costs. Our services include energy audits, LED retrofits, and the integration of smart technologies.
- e. **Emergency Power Systems:** We design and install reliable emergency power systems, such as backup generators and uninterruptible power supply (UPS) systems, ensuring uninterrupted operations during power outages.
- f. **Low Voltage Systems:** Our capabilities extend to low voltage systems, including security, access control, and communication systems. We implement cutting-edge technologies to enhance safety and connectivity.
- g. **Control Systems:** We design and implement advanced control systems for automation and efficient management of electrical systems, enhancing overall performance and responsiveness.
- h. **Renewable Energy Solutions:** Keeping pace with sustainable practices, we offer expertise in the installation of solar power systems, contributing to environmental conservation and energy independence.
- i. **Maintenance and Repair Services:** Our team provides prompt and efficient maintenance and repair services, ensuring the longevity and optimal performance of electrical systems.
